

ACKNOWLEDGEMENTS

I would like to express my gratitude to all those gave me the possibility to complete this thesis. I am deeply indebted to my supervisor Prof. Dr. Jen-Te Hwang for his help, suggestions, and encouragement to write this thesis. I am very fortunate in being a student of Professor Hwang, and will always remember those days discussing with him in campus.

Then I would like to thank my husband and colleagues for their support and encouragement. Their support and belief in me are the power making me able to complete the master's program, especially in this final year.

Lastly, I would like to thank Aaron, Ann(劉雅娟), Clare(蘇孟瑜), Sybil(陳思如), Teresa(郭美麗), and IMTS members for accompanying me, giving me a hand and inspiring me to complete this thesis.

Now, it is time to say goodbye and start another journey of life with these beautiful memories. Thank you all.
