

Acknowledgement

I especially want to thank Dr. C.P. Shieh, whose assistance and guidance were the keys to the successful completion of this thesis. I am also grateful to professors of Chien-Chung Nieh of Tamkang University and Mia Twu of National Chengchi University, who provided valuable advice and suggestions in the original manuscript. Thanks are also due to my friends of Jennifer Wu and Po-Kuang Cheng for their assistance in collecting some of the original data. Finally, I would like to thank my mother and my wife, Paulina, for their constant support and encouragement in the preparation of this thesis.
